

DULAM SUNNY (KRISH)

Aspiring Backend / AI Engineer

BVRIT Narsapur | B.Tech CSE (Lateral Entry), 2028 | 25215a552@bvr.it.ac.in | +91-9014046163 | github.com/Sanny0615 | linkedin.com/in/sunny-goud-8a4329372

OBJECTIVE

3rd-year CSE student building a strong backend engineering foundation (Python, FastAPI, SQL) alongside active Data Structures & Algorithms practice. Seeking a Backend / Python Developer internship to apply and grow real, hands-on engineering skills.

EDUCATION

B.Tech, Computer Science & Engineering (Lateral Entry) *BVRIT Narsapur – Expected 2028*

- CGPA: ~8.0/10 | Lateral Entry Entrance Rank: 466 (Integrated), 213 (Branch)

TECHNICAL SKILLS

- Languages: Python (OOP, exception handling), basic C, Java
- Backend: FastAPI (CRUD APIs, Path/Query params, Pydantic models, HTTPException), SQLAlchemy
- Database: SQL (certified – Simplilearn), relational schema design, basic query writing
- Currently learning: FastAPI response models
- Problem Solving: Data Structures & Algorithms (NeetCode 150 – completed Arrays & Hashing, currently solving Two Pointers)

PROJECTS

Student Management API – FastAPI, SQLAlchemy, Pydantic *Personal Project | github.com/Sanny0615/student-management-api*

- Built a full CRUD REST API from scratch: GET/POST/PUT/DELETE endpoints with request validation.
- Implemented duplicate-entry validation and structured error handling using HTTPException.
- Organized codebase into modular structure (models, database, routers) instead of a single file, for readability and scalability.
- Wrote and understood every line personally – no unexplained AI-generated code.

CERTIFICATIONS

- SQL – Simplilearn (2026)

ADDITIONAL INFORMATION

- Actively solving DSA problems daily (NeetCode 150) with personal pattern notes for each problem.
- Comfortable working independently, learning new tools quickly, and communicating in English.
